

# Northeast Dubois High School

## ABOUT

Northeast Dubois High School strives to assist students in meeting their potential both academically and socially. Our mission is to create a safe, respectful, cooperative environment where relevant, engaging, real-world learning experiences are available for all of our students.

## WHO WE SERVE

Northeast Dubois High School is in rural Dubois County, located in the southwestern portion of Indiana. The school population is fewer than 300 students in grades 9-12.

## BEST PRACTICE

In order for all students to be able to take the SAT without financial barriers or transportation issues, the school offered the exam to all juniors during the school day. The school used fee waivers to pay for those students who were eligible due to Free/Reduced lunch, TRIO, 21st Century Scholars or other eligible waivers. For the remaining students, we obtained a grant to pay the fee so that all students could take the tests without cost.

## HOW TO...

Step 1: Request test date for school location and certify someone on staff to administer the SAT and/or ACT.

Step 2: Determine funding need versus waiver eligibility and apply for grant funds.

Step 3: Help students register for the SAT and/or ACT using grant funds or fee waivers.

Step 4: Complete SSP activity after students have completed the exam.
